PREPARATION INSTRUCTIONS

Rehydrate each freeze-dried patty with 1/2 - 1 cup warm water or broth to provide a nutritionally balanced serving. See recommended feeding amount in chart on right.

This is a general guideline for adult dog's calorie requirements. Not intended for puppies.

For each meal, divide the number of patties per day by number of servings per day. For example, if you feed your dog twice each day, divide by two.

Portion Amounts

Small Dog (10-25 lb)	1-2 Patties/Day
Medium Dog (26-40 lb)	2-3 Patties/Day
Large Dog (41-60 lb)	3-4 Patties/Day
Extra Large Dog (61-80 lb)	4-5 Patties/Day
